Dear Angelica,

Congratulations!

We are incredibly proud to present *The Bradley and Beverly Williams Family Scholarship* to someone that we consider to be a very worthwhile recipient.

It has been such an honor for the Scholarship Committee to review all the applications that the Austin Board of Realtors Foundation received and then highlight those students we thought were both outstanding and deserving.

We are thrilled that you have a Servant's Heart and want to provide counseling in a school environment. Bradley's family were all educators and we know first-hand the struggles that many young people are experiencing both in school and at home. Students who need a shoulder to lean on and a listening ear will appreciate your understanding, compassion, support and guidance. Everyone needs an Advocate at some point in their lives!

We would also like to encourage you to continue making a difference in your Community where you choose to live/work/play ... whether that involvement is political, humanitarian, social services, through a nonprofit that speaks to your heart or a meaningful cause that you are passionate about.

We wish you much success now and in all that you accomplish moving forward.

Our warmest regards,

Bradley and Beverly Williams
