## **Why do you want to serve as an ABoR director?**

My desire to volunteer as a director with the Austin Board of REALTORS® comes from a deep-rooted drive to give back of my time and resources to the REALTOR® community that has served me so well for the past 17 years. I have a solid understanding of the real estate industry and the utmost respect for the values of the everyday hardworking REALTOR® who is grinding it out to succeed. My passion is to represent them to the best of my abilities because..... I am one of them.

As a board member it would be my intent to continue actively encouraging input from members with an emphasis on making sure all voices are heard. I am a firm believer that evaluating the needs of our real estate community can best be achieved with member input. Through ABoR, all members should have access to the very best tools, technology and education available.

Our mission as board members should be to build trust and serve our membership community such that they, in turn, can serve their clients at the highest professional level.

I believe as a board member significant priority should be placed on fiscal responsibility so that we secure the future.... with good practices today. In addition, as board members, we are to lead with transparency and accountability inspiring our members to actively engage in the ideas and issues that affect our profession today, tomorrow and beyond.

It is an honor and privilege to serve.

## **What do you do in your personal time? Do you have any hobbies?**

Active volunteer in the homeless community, in particular Mobile Loaves and Fishes - Community First Village. Enjoy family, reading, working out, running and playing basketball.
