Why do you want to serve as an ABoR director?

I want to help build connections and deepen the efforts to ensure all members have a sense of belonging. ABOR's Strategic Plan and core vision have struck a chord with me and I want to serve its intention. I want to expand on the collaborative culture that is a unique narrative in the Austin market and by doing so support the vision to be the most engaged and professional REALTORS® in the nation. Aiding this effort can create a roadmap for the next generation of Realtors and position ABOR as the gold standard for Realtor Associations and members.

What do you do in your personal time? Do you have any hobbies?

My family and I are active in the community theater and music scene and produce and perform together through stage and screen. I am a proud shelter pet mama and avid pilates and movement student.
